

The UQ Publications Collection

Author Affiliation Form

Each publication submitted to DIISR for the HERDC must be able to prove the affiliation of the author(s) to The University of Queensland, **at the time the research, leading to the publication, was conducted.** Institutional affiliation is usually demonstrated by the naming of The University of Queensland in the author's by-line or footnote.

To be completed by the author of the publication:

I, Joan Webster conducted the research leading to the following publication(s) in my capacity as a staff member ☒ or student ☐ of The University of Queensland.

Staff Universes

Criteria Prompts:
Enter Surname: webster
Enter Preferred Name: joan
Username: x
Aurion ID: x
Student ID:

Note: searching by UQ username will only search in staff current and will not retrieve data from Student unverses.
Where possible the query will then search Staff Official Universes for any Aurion IDs retrieved in the Staff Current search.

Staff Author Affiliation Supporting Documentation

General Report Notes

The authors of any research publications being counted in the HERDC Research Publication Return must be affiliated with the University of Queensland and the affiliation must usually be identified either within or on the work being claimed.

Where author affiliation with the University of Queensland is not identified within a work, the following evidence retained in verification material would be sufficient to demonstrate author affiliation and should include:

- * a statement from the author indicating that he or she undertook the research leading to the publication in his or her capacity as a staff member or student of the University of Queensland

and

- * an extract from the University of Queensland staff or student list that lists the author.

This report can be used to supply the required extract from the official staff list of the university for use as the additional supporting evidence.

A statement from the author indicating the research was done on behalf of the University is also required.

This report will list any staff who are currently employed by UQ or were part of our Official Staff census in the last 5 years.

How to use this report

To use this report you can search for people by surname and by Preferred name (preferred given name). Both name fields must be populated when searching by name.

The "%" wild card can be used in both fields.

You can also search for people using their "UQ Sign In" user name or their staff Aurion Id.

Please put a 'x' in any field not being used in the search.

If doing a name search you may end up with several people to choose from (especially if using a wild card name search). You can instead use the Input Controls to filter the results to the person you are interested in.

Replace all other search fields with an 'x' then rerun the report.

This will ensure only the desired staff or student is returned by the report. This report can now be saved as a 'pdf' document to be sent to the eSpace Team using the ESpace@library.uq.edu.au address.

Please ensure the publication PiD this is being generated for and the name of the researcher is included in the file name (eg. "JohnSmith_author_affiliation_pid_12345.pdf").

Please note that eSpace cannot take file names with spaces, so use an underscore "_" in the file name (as per the example above).

Contact for this report

For help with this report (eg for explanations of terms or if there appear to be problems with the data) contact Research Analysis and Operations email biblio@research.uq.edu.au

If you require assistance with using or amending this report, please contact the MIS Helpdesk on ext 52595.
